Ranges are illustrative sensitivity scenarios produced by the interactive model, not official scores. Adjust realization and toggle streams at theamericandeal.org/fiscal-model.

Evidence standard: Fiscal and impact figures are NSRA model estimates built on published CBO, JCT, OMB, GAO, Treasury, SSA, OECD, and peer-reviewed baselines — internally modeled and sensitivity-tested, not yet officially scored by CBO or JCT, which is pending and welcomed. Statutory parameters (e.g., the $35 insulin cap, the 50-unit corporate housing cap) are the text of the bill, not projections. TheAmericanDeal.org is an independent project of Santonio D.
