Base year FY2025 unless noted. Confidence reflects internal modeling maturity, not external validation. All streams internally modeled; external review and official scoring pending. Full basis: Figure-by-Figure Sourcing.

Evidence standard: Fiscal and impact figures are NSRA model estimates built on published CBO, JCT, OMB, GAO, Treasury, SSA, OECD, and peer-reviewed baselines — internally modeled and sensitivity-tested, not yet officially scored by CBO or JCT, which is pending and welcomed. Statutory parameters (e.g., the \$35 insulin cap, the 50-unit corporate housing cap) are the text of the bill, not projections.
