Deficit limits in law (Sec. 3406(f))

The core programs reduce CBO's baseline deficit by roughly one-tenth, and the Fiscal Sustainability Plan of Sec. 3410 roughly doubles that by Year 10: about $5.5T over ten years including lower interest costs. Sec. 3406(f) caps the deficit at 4.5% of GDP by Year 4 and 3% by Year 10, and requires a vote by Year 8 on a Balanced Budget Act that balances the budget by Year 15. Together the core and the plan cover about three-quarters of the drop to the Year 4 limit; reaching the Year 10 limit takes about 2% of GDP more, from a plan Congress passes or the automatic trigger (new adjustments capped at 0.5% of GDP a year; Social Security, Medicare, Medicaid, veterans, SNAP and the Basic Minimum Plan exempt).

Assumptions: revenue realization 86/94/98/100% in Years 1–4, growth 4% a year; programs phase in 55/75/90/100% behind certification gates, growth 4.5% a year; interest savings at 3.5% on debt avoided. Scenario B discounts High-confidence streams 5%, Moderate 20%, Preliminary 50%. Full detail: Schedule G and the scorer workbook at theamericandeal.org/data/NSRA_Scorer_Workbook.xlsx. Annual figures are rounded; totals may differ by $1B.
